World Port Conference is a world-class event bringing together leading port stakeholders for learning, information sharing, networking and collaboration.

Ports are facing multiple headwinds. Geopolitical tensions, an impending energy crisis, global inflation, post-pandemic disruptions and extreme weather are all impacting world trade and economic prosperity.

IAPH event 2023 will bring, in Abu Dhabi, ports and their business partners together to innovate, finance, invest in and sustain successful long-term energy transition, digital transformation and resilience in a highly unpredictable world.
